## GET ALL YOUR DIABETIC NEEDS FROM YOUR PHARMACY

The Australian Government implemented changes to the NDSS from 1 July, 2016. Under these changes, NDSS products are solely distributed from NDSS Access Points, of which all Discount Drug Store pharmacies are a part of.

The new arrangement included changes to access to subsidised test strips for people with Type 2 diabetes who do not use insulin, where from 1 July 2016, they can purchase subsidised blood glucose testing strips for an initial period of six months.

If your doctor, credentialed diabetes educator or nurse practitioner decides that it is necessary for you to continue to monitor your blood glucose levels, they will need to sign an NDSS Blood Glucose Test Strip Six Month Approval form. This will mean you can access subsidised blood glucose test strips for a further six month period. You will need to bring this signed form to your pharmacy.

At Discount Drug Stores, our experienced and friendly Pharmacists can help with any query you have about your diabetic medication, monitoring equipment and NDSS registration. If you would like more information about the process of continuing access to subsidised test trips, come in and speak to one of our Pharmacists today.
